

# Tablet 7

Clinic Management Software

## Topline Computer Trading LLC

Was founded in Dubai on 2001

Leading System Service Provider

Finest systems integrator with most cost- effective solutions

A team of professionals offering timely

TOPLINE is built on relationship and trust

# What is Tablet 7

A complete and efficient clinic management software solution

It is efficient enough to ensure paperless operation

This medical software features different modules each of which has been designed to carry out a unique task

It has a detailed Doctor's module enabling the medical practitioners to access complete patient details

This clinic software can also be used as an office assistant, so as to ease the administrative tasks of clinic management

The software can be customized to meet the specific requirements of the individual clinics and health care facilities in U.A.E and other parts of the world with equal efficiency.

## E-Prescription

Tablet 7 allows physicians and other medical practitioners to write and send prescriptions to a participating pharmacy electronically instead of using handwritten or faxed note

## Features of Tablet 7

## E-Print

We can send a print from medical practitioner desk to any where in the world via automated email service.

## E-Claim

Dubai Health Authorities unified standard healthcare data communication- eClaim- can be done with the help of Tablet 7 effortlessly

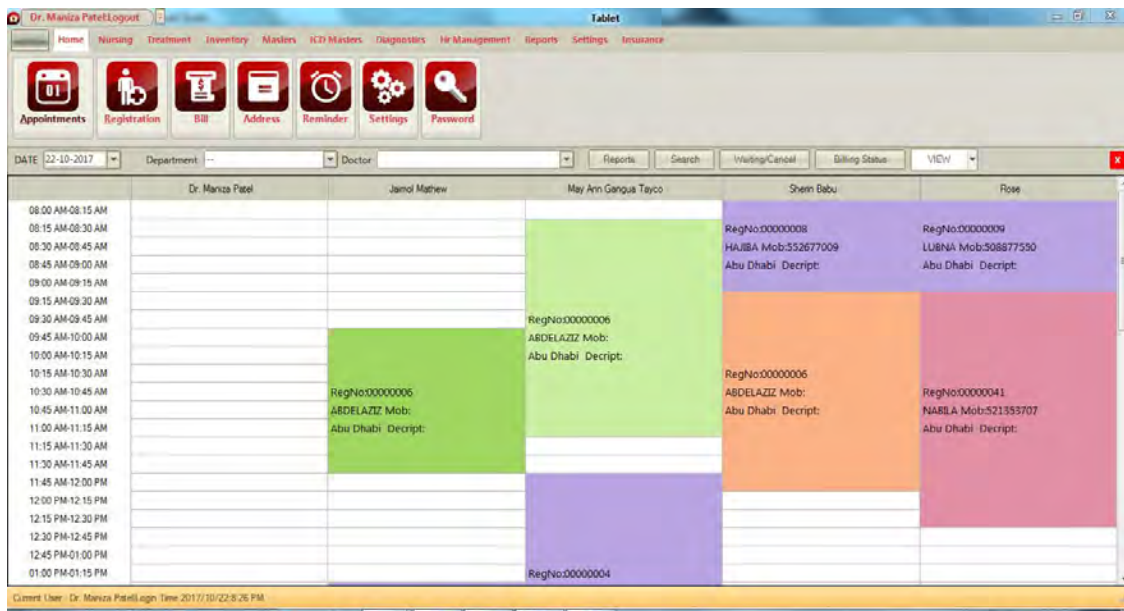

## Emirates ID Integration

Alert will help to inform doctor about patients critical medical condition at the earliest.

# Treatment

The screenshot shows the 'Treatment' module interface of the Tablet 7 software. The top navigation bar includes 'Home', 'Housing', 'Treatment', 'Inventory', 'Masters', 'ICD Masters', 'Diagnostics', 'HR Management', 'Reports', 'Settings', and 'Insurance'. Below this is a row of icons for various medical specialties: Treatment, Dermatology, Physiotherapy, Dental, Gynaecology, Ophthalmology, Laser, Optometry, and Eye Surgery. A secondary bar contains buttons for 'Alert', 'Nursing Triggers', 'Patient Photo', 'Patients File', 'Certificate', 'Medical History', 'Patient Visits', and 'Prescription'. The main area is divided into several sections: 'CHIEF COMPLAINTS', 'FAMILY HISTORY', 'PERSONAL HISTORY', 'SYSTEMATIC EXAMINATION', 'DOCTOR'S OBSERVATION', 'FINAL DIAGNOSIS', 'PROCEDURES' (with a dropdown menu), 'SELECT INVESTIGATION' (listing Laboratory, Endoscopy, Imaging, and Physiology), 'IMMUNIZATION' (showing 'No data to display'), and 'HABITS'. At the bottom, there are fields for 'Send Eauthorisation Request', 'eAuthorisation No.', and a 'Save' button. The status bar at the very bottom indicates 'Current User: Dr. Manza Patel Login Time: 2017/10/22 8:34 PM'.

Treatment module will help to keep patient medical records electronically. Integrated e-Authorization module will help to send e-Authorization request automatically.
